

CASE STUDY : FM GLOBAL, VOYAGER HOUSE, MAIDENHEAD, BERKS

FM Global project was a CAT B design interior fit out project at Voyager House in Maidenhead, which is a 58,000 sq. ft. building over 4 floors.

This was the first project working for AIS Workplace and also the largest project Profixed had undertaken at that point. Profixed were successful in delivering this high-end design, supply, and installation of all partitioning, drywall, glazed partitions, suspended and feature ceilings, doorsets, atrium and associated works.

AIS Workplace

Completion

May 2019

Approx. Sq. ft.

58,000

Value to Profixed

£1.3m

CAT B

Design Interior Fit Out

Site Safety Audit—13 February 2019

"The Profixed team deserve credit for the projects overall health and safety conditions seen today. The project has evolved considerably since my previous visit and the finish is looking great. The glass installation has been a challenging task with intricate detail"

Site Safety Audit—19 March 2019

"The top floor has now been handed over to the client. The majority of works are now being undertaken on the ground floor. Profixed operatives were observed working safely and in accordance with their working methodologies. All operatives were compliant with PPE. It is evident that a positive safety culture is being executed within the Profixed team."
